

QUALITY CONTROL LABORATORIES FOR MEDICINES

Publisher: WHO

Overview

Quality control laboratories included on the WHO List of Prequalified Medicines Quality Control Laboratories have been assessed, inspected and found to comply with Good Practices for Pharmaceutical Quality Control Laboratories, Good Practices for Pharmaceutical Microbiology Control Laboratories and relevant components of WHO Good Manufacturing Practice.

This list of WHO prequalified medicines quality control laboratories, contains laboratories which have expressed their interest to participate on a voluntary basis in the World Health Organization (WHO) prequalification procedure, have been assessed as part of the WHO Prequalification Programme and found to comply with standards recommended by WHO.
